HORIZON METALCRAFT PVT. LTD.

Specializes in **Heavy Fabrication**
and **Pre-Engineered Building (PEB)** solutions.

OUR MISSION

- Deliver cost-efficient and reliable fabrication/PEB projects.
- Continuously upgrade technology and infrastructure.
- Build long-term partnerships by exceeding customer expectations.

OUR VISION

To be a nationally and globally recognized engineering partner by delivering high-quality Heavy Fabrication & Pre-Engineered Building (PEB) solutions with innovation, safety, and sustainability.

OUR VALUES

We deliver tailored, high-quality, and cost-effective solutions that drive lasting success for our clients.

- Safety First
- Innovative
- Collaborative
- Passionate
- Open, Honest & Reliable
- Adaptable

HORIZON METALCRAFT

Horizon Metalcraft Pvt. Ltd., an ISO 9001:2015 certified company based in Ambarnath MIDC, Maharashtra, specializes in Heavy Fabrication and Pre-Engineered Building (PEB) solutions. We deliver end-to-end EPC projects across industrial, commercial, and infrastructure sectors, serving leading clients like Tata Projects, L&T, Adani Infra, and Vedanta.

With advanced facilities, rapid execution, and a strong focus on innovation and sustainability, With a robust production capacity of 300 to 500 metric tons per month, we are well-equipped to meet varying client demands., We have established ourselves as a trusted partner in India's heavy engineering sector.

 **QUALITY SERVICES** **TRUSTWORTHY PARTNERSHIP** **INNOVATIVE TECHNOLOGY** **EXPERT TEAM**

OUR OFFERINGS

1 Pre-Engineered Buildings (PEBs)

Warehouses, industrial sheds, cold storage, and factories.

2 Heavy Steel Fabrication

Girders, bridge structures, formworks, launching girders.

3 Industrial Equipment

Storage tanks, silos, chimneys, heat exchangers, pressure vessels.

4 Cranes & Handling Systems

EOT, JIB, and Goliath cranes up to 100T capacity.

5 EPC & Site Work

Onshore/offshore fabrication, piping, tank farms, heavy erection.

6 Infrastructure Solutions

Pipe racks, skywalks, catwalk bridges, logistics hubs.

TARGET MARKET

Whatever your industry, we've got you covered!

INDUSTRIES

Oil and Gas, Petrochemical

We aim to position ourselves as a key player in the global **Oil and Gas Industry**, emphasizing our steadfast adherence to safety, quality, and innovation. Our state-of-the-art equipment is tailored to handle the lifting requirements of **structures, pipelines, and more.**

Refineries and Chemical Plants

Drawing on our extensive expertise in refinery operations, we have successfully delivered numerous projects in this sector. As trusted vendors, we have fulfilled diverse requirements at prominent facilities.

Pharma

Horizon Metalcraft provides expert fabrication solutions for the pharma sector. With specialized machines and a skilled team, we ensure efficient, safe installations. Our experience in the **Pharma sector** supports infrastructure development.

Infrastructure

Our portfolio includes successful contributions to major highway projects, encompassing girder and block erection, railway underpasses, and notable projects.

COMMERCIAL

Warehouses, industrial sheds, and logistics hubs.

GOVERNMENT PROJECTS

Heavy civil infrastructure such as bridges, flyovers, and metro projects.

GLOBAL EXPANSION

Focusing on international EPC contracts for large scale projects.

INFRASTRUCTURE CAPABILITIES:

HOW DO WE MAKE YOUR PROJECT SUCCESSFUL?

We are a prominent service provider of the industry involved in offering a wide array of Heavy Fabrication and Pre-Engineered Building (PEB) solutions. and much more. Our offered services are highly demanded in the market for their accuracy and timely execution.

Skilled Crew

Rigorous training ensures your success.

On-Time, Every Time

Deadlines met, expectations exceeded.

Technology

New technology has enabled services to be more compact and energy efficient.

Planned to Perfection

Every stage is meticulously planned.

Green Lifting

We believe in minimising the impact & maximising the efficiency.

Quality You Trust

Zero compromises are made when it comes to machinery.

QUALITY ASSURANCE PLAN

Approved Quality Assurance Plan is followed stringently throughout the manufacturing process. Raw materials, bought out items and consumables are purchased from approved vendors only.

- Our in-house Level II inspector ensures high-quality inspection of all projects.
- We are equipped with comprehensive NDT facilities, including MPT, UT, and DPT.
- To support detailed material testing and certification, we also work in partnership with NABL-accredited laboratories.

Innovating the high-tech future: **Our leading drive**

UNIQUE SELLING PROPOSITION

At HORIZON METALCRAFT, our Unique Selling Proposition lies in delivering precision-engineered heavy metal fabrication solutions tailored to meet the toughest industry standards. With state-of-the-art equipment, expert welders, and a commitment to quality, we specialize in custom projects with fast turnaround times and unmatched durability. From large-scale structural components to intricate custom parts, we provide reliable, end-to-end fabrication services that set us apart in the industry.

Advanced Infrastructure
CNC, automated welding for precision.

End-to-End EPC Solutions
From design to erection.

Sustainability Focus

Recyclable materials and eco-friendly methods.

Quality & Compliance
ISO 9001:2015 certified.

Trusted by Industry Leaders
Clients like Tata, L&T, and Vedanta.

Faster Execution

Projects completed 50% faster.

Committed to Delivering High Quality Projects

At the core of our operations lies an unwavering commitment to delivering high-quality projects that meet and exceed industry standards. With a focus on precision, durability, and compliance, we bring together skilled craftsmanship, advanced fabrication techniques, and stringent quality control processes to ensure every component we produce performs reliably in the most demanding environments. Our in-house inspection capabilities, including certified Level II inspectors and a full range of NDT methods (MPT, UT, DPT), are complemented by partnerships with NABL-accredited laboratories for comprehensive material testing. From design to dispatch, every stage of our fabrication process is driven by our dedication to excellence, client satisfaction, and long-term performance.

Companies That Trust Us

And many more...

PROVEN PROJECTS, TRUSTED DELIVERY

We specialize in heavy metal fabrication, delivering high-strength, precision-engineered components for industrial applications. From structural frameworks to complex assemblies, our fabrication process is driven by advanced machinery, skilled craftsmanship, and strict quality control.

Whether it's for power, infrastructure, or heavy engineering sectors, we ensure each project is built to perform in the most demanding environments.
